Work authorization: post-study job-seeker residence permit (full-time work allowed)

Payments and fintech Product Manager focused on payment platforms and AML compliance for large consumer brands. Led the company's first AML system and a second payment gateway for redundancy, turning regulatory requirements into specifications for engineering. MA in Visual & Experience Design (Germany).

WORK EXPERIENCE

Product Manager | Payment Business Team (2019 - 2024) **Seoul, South Korea**
(Official Title: Business Planning Sr. Analyst)
CJ OliveNetworks Co., Ltd *Jul 2017 - Jul 2024*
Earlier roles (2017 - 2019): system operations and retail digital projects

- Payment Platform & Operations
  - Managed 20+ online payment methods for CJ brands across entertainment (CGV, TVING), beauty (Olive Young) and food (CJ The Market, Tous Les Jours): launches, integrations, incidents and policy.
  - Analyzed PSP API specifications and wrote the policy definitions engineering built new payment services against; documented integration reference data on Confluence for the first time.
  - Resolved reconciliation issues (unsettled transactions, PSP/back-office mismatches) with engineering and PSPs, and prepared regular reports to Korean financial authorities.

- **Anti-Money Laundering (AML) System Implementation (2023 - 2024)**
  - Led the company's first AML system, from vendor selection to requirements and data integration, as the single point of contact for seven internal teams and the vendor.
  - Designed the CDD/EDD back-office menu (8–10 screens) by merchant type, built as designed. After launch, handled merchant KYC and reviewed STR alerts daily.

- **Tiered Card-Fee Back Office (2023)**
  - Redesigned the semi-annual reduced card-fee update with engineering, including VAN routing rules, cutting about three weeks of manual Excel work to a few hours.

- **CGV Easy Pay (2022)**
  - Co-delivered a PIN-based easy-pay service for CGV, one of Korea's largest cinema chains, with 8 card issuers, replacing a four-step card checkout with a 6-digit PIN. Extended to CJ The Market.

- **Second Payment Gateway for Redundancy (2019 - 2021)**
  - Led the integration of an external payment gateway alongside our own for payment redundancy, from tender and service policy to testing, phased launch and post-launch issues.
