Jiwon Park

UX / Product Designer

g.now0205@gmail.com | Berlin, Germany | Open to relocation
Job-seeker permit (eligible to work) | www.linkedin.com/in/jiw0npark | jiwon-park.vercel.app/design/

UX / Product Designer with an MA in Visual & Experience Design and a background in payments product management. Designed back-office tools and compliance flows that were built as designed and used in operations, and turns complex, regulated processes into clear flows with engineering.

DESIGN PROJECTS

POOM - Master's Thesis | Solo | Grade: 94.1 / 100 *Jul 2026*

Wellbeing app that treats rest as progress, addressing the guilt of streak-based fitness tracking.
- User interviews and a comparison of five apps incl. Apple Health, Strava, Calm and Duolingo
- XP never drops, rest counts as recharge, Taekwondo belt levels; think-aloud test across six scenarios

Bookiverse - Capstone Project | Solo | Grade: 92.0 / 100 *Jan 2026*

Two-sided platform connecting emerging authors with readers.
- Interviews with an author and a reader, comparison of six reading platforms, personas and empathy maps
- Mapped reader and author journeys; lo-fi to hi-fi incl. a reader support flow and an author dashboard

WORK EXPERIENCE

Product Manager | Payment Business Team (2019 - 2024) Seoul, South Korea
(Official Title: Business Planning Sr. Analyst)
CJ OliveNetworks Co., Ltd *Jul 2017 - Jul 2024*
Earlier roles (2017 - 2019): system operations and retail digital projects

- **Anti-Money Laundering (AML) System Implementation (2023 - 2024)**
  - Designed the customer verification back office (8–10 screens), turning legal requirements, data and customer types into branching registration flows; built as designed and used by the operations team
  - Mapped the as-is and to-be onboarding process and wrote the operating manual; single point of contact for seven internal teams and the vendor
- **Tiered Card-Fee Back Office (2023)**
  - Designed almost all screens of a new back-office tool and agreed a low-impact implementation with engineering, cutting about three weeks of manual Excel work per half-year to a few hours
- **Payment Platform & Operations**
  - Owned 20+ payment methods for consumer brands (CGV, Olive Young, TVING); wrote service policies and first documented integration knowledge on Confluence
  - Co-delivered CGV Easy Pay, replacing a four-step card checkout with a 6-digit PIN, and led a second payment gateway for redundancy, from tender to phased launch
